

RAYMAKERS
ROYAL DUTCH TEXTILE MILLS

Crisis & Confidence; > 1000 velvets by the piece

Despite the economic crisis, at Raymakers we have the confidence to continue to do where we believe in. That is; continuous product and collection development in velvets and a first class customer support.

To support our customers with the introduction of new velvet collections, Raymakers introduces at Proposte 2009 in Como/Italy (6th-8th May 2009) a velvet piece programme of over 1000 items. All available at 1 piece minimum per colour. This programme includes; cotton, viscose, silk, linen and Trevira CS velvets. Moreover; organic velvets, outdoor velvets, upholstery velvets and curtain velvets are part of this program. Also plain velvets and decorated velvets with brushed or embossed designs. Also domestic velvets and contract FR velvets. All in recent colour ranges.

Some highlights;

- A combination concept of **plain and embossed velvets** in a rich cotton look. Suitable for both upholstery and curtain use, available in 52 colours and 8 different designs.
- **Chic vintage look** in velvet by a refined blend of linen and silk for the pile yarn.
- Another combination concept of a **plain and a cord velvet**, made out of the most luxurious cotton yarn, available in 52 co-ordinated colours.
- The first **organic cotton** velvet, suitable for both upholstery and curtains, now available by the piece in over 50 colours.
- The first **outdoor velvet** with a weathering fastness > 6 (ISO 105-B04) and the highest IMO FR qualification, available in 48 colours by the piece. Also suitable for indoor use.
- Most sumptuous and glamorous; **100% silk velvet**, available in 25 colours by the piece.
- The world wide standard for **dual cotton velvet**, Martindale 50.000 rups, TEFLON finish, curtain and upholstery use, now available in **200 colours by the piece**.

With this > 1000 velvets by the piece program, Raymakers offers converters and editors an extensive velvet selection for all markets segments. Easy to handle, up to date colour ranges and a wide variety of qualities at different price levels.
